

ANI FERCIA T.L

Front-End Developer

Kattathurai, Kanniyakumari Dist., India | 8438584302 | [linkedin.com/in/anifercia](https://www.linkedin.com/in/anifercia) | ferciaani123.github.io

PROFESSIONAL SUMMARY

Front-End Developer and UI/UX Designer with 3+ years of experience building responsive, interactive web interfaces using JavaScript (ES6+), React.js, and Angular, and designing user-centric interfaces in Figma and Adobe XD. Skilled at translating design files into pixel-perfect, cross-browser, mobile-first UIs, integrating RESTful APIs, and managing component-based application state. Comfortable working in Agile/Scrum teams alongside designers, backend engineers, and product managers, with a strong eye for detail, debugging, and performance optimization. Delivered 20+ live client projects across India, Bahrain, and international markets.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: Angular, jQuery

Styling: Tailwind CSS, Bootstrap

Tools & Practices: Git, GitHub

Design & UX: Figma, Adobe XD, Wireframing, Prototyping, Design Systems

Additional: WordPress (Elementor, WooCommerce), PHP, MySQL, SEO Basics

WORK EXPERIENCE

Frontend Developer

Feb 2025 – Present

Crayo Tech Business Solutions Pvt Ltd | Technopark, Trivandrum, Kerala, India

- Develop and maintain responsive, JavaScript-driven front-end interfaces across Angular and WordPress projects for clients across India and international markets, including Bahrain.
- Build and enhance dynamic UI components using HTML5, CSS3, and JavaScript (ES6+) in Angular applications, alongside WooCommerce, Elementor, and SEO tooling for CMS-based projects.
- Collaborate with design, product, and backend teams to translate UI mockups into pixel-perfect, functionally sound web experiences, following Agile development standards.
- Ensure cross-browser compatibility, mobile responsiveness, and front-end performance across all live client projects.

Frontend Developer

Apr 2023 – Feb 2025

Softmind Tech Service Pvt Ltd | Kattathurai, Kanyakumari

- Built dynamic, interactive Single Page Application (SPA) interfaces using Angular, plus WordPress-based sites, for diverse client verticals.
- Converted Figma and Adobe XD designs into pixel-perfect, responsive HTML/CSS components across Angular, React, and WordPress builds, ensuring technical feasibility of UI/UX designs.
- Delivered multiple client projects including e-commerce, corporate, and event websites with clean UI/UX and asynchronous, AJAX-driven page updates.
- Worked closely with backend developers to integrate RESTful APIs and ensure smooth, real-time data flow across applications.

Full Stack Developer Intern

Aug 2022 – Mar 2023

Clovion Tech Solutions Pvt Ltd | Azhagiyamandapam, TamilNadu, India

- Assisted in developing full-stack web features using HTML, CSS, JavaScript, and backend technologies.
- Gained hands-on experience in database management and server-side integration.
- Participated in Agile workflows, code reviews, and daily stand-ups, building a strong collaborative and delivery-focused mindset.

DEVELOPMENT PROJECTS

HR Uniq – HR Management Platform — Angular, JavaScript (ES6+), REST APIs

- Built dynamic, reusable UI components for an HR management platform using Angular, covering employee, attendance, and payroll workflows.
- Implemented component-based architecture and state management in Angular to improve code reliability and maintainability.
- Integrated REST APIs to handle real-time employee data updates across HR modules with smooth, responsive UI interactions.

Wellness With Wafa – Bilingual WooCommerce Fitness & Nutrition Platform (Bahrain) — *WordPress, WooCommerce*

- Built a bilingual (English/Arabic) WooCommerce website with coaching package pages, multi-currency support, and a dynamic cart/checkout flow.
- Created before/after client transformation and testimonial sections with a responsive, mobile-first layout.

Mane Kancor – Natural Ingredients Manufacturer Website — *WordPress*

- Built and maintained a corporate website for a global natural ingredients manufacturer with complex multipage architecture.
- Customised WordPress themes to reflect brand identity with a responsive product catalogue and SEO-optimised content pages.
- Optimised site speed and implemented meta tags and structured content for improved search engine visibility.

Utility – MEP Contracting Company Website (Bahrain) — *Custom CMS, HTML5, Bootstrap, PHP*

- Developed the responsive, multipage frontend (HTML5, CSS3, Bootstrap) for a custom PHP-CMS site for a Bahrain-based MEP contractor, presenting services, ISO 9001:2008 certification, and completed projects.

GETS – Global Engineering Technology Services — *WordPress*

- Developed a responsive WordPress corporate website for a global engineering and architectural design firm operating across France and the Philippines.
- Built dynamic sections for services, projects, and news, plus an inquiry form with a service-selection dropdown and customised theme styling.

RighCars – Used Car Marketplace (Bahrain) — *PHP, MySQL, Bootstrap, Custom Web Application*

- Developed a dynamic car buying and selling marketplace platform with advanced search filters (make, model, year, price, mileage) for the Bahrain automotive market.
- Implemented responsive UI enabling buyers to compare vehicles, make offers, and contact sellers directly.

GlowKonnct – Beauty & Wellness Marketplace — *PHP, MySQL, Bootstrap, Custom Web Application*

- Developed a beauty and wellness marketplace platform enabling users to compare and book salons, spas, and gyms from verified local partners.
- Built service search, comparison, and personalised recommendation features alongside an appointment booking and notification system.
- Implemented a responsive UI for browsing services, comparing prices and ratings, and managing booking confirmations.

ATTOI – Association of Tourism Trade Organizations India — *WordPress, Elementor*

- Developed an association website with membership management, event listings, and member directory sections using Elementor.
- Integrated membership renewal and new registration workflows to improve overall user experience.

UI/UX DESIGN PROJECTS

Tiny Tootle – Baby & Kids Essentials E-commerce — *Figma, UI/UX Design*

- Designed a soft, friendly UI/UX concept in Figma for a baby-products storefront, using warm imagery and a simple product/about/blog navigation structure to build trust with new-parent shoppers.
- Created wireframes and high-fidelity, clickable prototypes in Figma to define layout, typography, and a gentle brand voice suited to the target audience.
- Shaped a clear visual hierarchy that guides shoppers naturally from browsing into checkout, before any code was written.

Le White Boutique – Bridal & Couture E-commerce — *Figma, UI/UX Design*

- Designed a luxury bridal-couture storefront UI/UX in Figma, using arched hero imagery and a warm, editorial gold palette to give the brand an authentic boutique feel rather than a generic template look.
- Designed an appointment-booking flow within the Figma prototype to support consultation scheduling alongside product browsing.
- Built wireframes and interactive prototypes to validate navigation and user flow with stakeholders ahead of development handoff.

EDUCATION

Master of Business Administration (MBA) – HR & Operations 2023 – 2025

Loyola Institute of Technology and Science | Thovalai , Kanniyakumari Dist. , TamilNadu , India

Bachelor of Science – Physics 2019 – 2022

Nesamony Memorial Christian College | Marthandam, Kanniyakumari Dist. , TamilNadu , India
